

# FACTS NOT FEAR

What the mainstream media are **not** reporting

## 1 Over 99+% of people recover from COVID

The **risk** of death from COVID for the healthy general population of school and working age is comparable to a daily car ride to work [1]. The mortality rate is only 0.1-0.5%, similar to a **bad seasonal flu** [2]. For most people COVID is NOT deadly [3].

## 2 Most people diagnosed have NO or very mild symptoms

Most so-called COVID “cases” or “infections” are actually **healthy people** who do not require any treatment or hospitalisation [4].

## 3 The COVID PCR test is notoriously unreliable

Up to **90%** of reported “COVID positive” cases are actually inaccurate “false positives”. The inventor of the PCR, Dr Kary Mullis, said it was **never designed to be used for diagnosing any illness** [5]. Courts in Portugal have ruled that the PCR test is not a reliable test for COVID [6]. Faulty PCR testing means massive numbers of healthy people are being falsely diagnosed as being “infected” [7]. The more flawed COVID testing is done, the more false “cases” are being reported and sensationalised by the media.

### Broken leg? It's COVID!

If you go to hospital with a **broken leg** and, while there, are also given the unreliable PCR test and the result is “positive”, then you will be recorded as a hospitalised COVID “case/infection”. This happens even though you have **no symptoms** and are only being treated for a broken leg.

**THIS DISHONEST AND EXAGGERATED REPORTING IS OFFICIAL HSE & WHO POLICY.** Confirmed to the Dáil (29/09/20).

## 4 Legal action is being taken against the WHO for fraud

An international alliance of medical doctors, scientists and lawyers is taking legal action against the World Health Organisation for gross **medical negligence** for using flawed PCR tests, promoting unnecessary fear and causing massive social, economic and medical harm through lockdowns [8].

## 5 Lockdowns are unnecessary and harmful to health

Thousands of jobs are being destroyed, cancer screenings cancelled, families and individuals are being put under enormous stress and loneliness and suicide rates are rocketing. **Lockdowns are far worse than the disease.** Countries like Sweden and Japan have not imposed lockdowns and people live as normal [9].

## 6 Wearing a facemask is unnecessary and unhealthy

Facemasks do NOT protect anyone against ANY virus. To prevent a virus infection, you need to wear a fully sealed hazmat suit. However, **wearing facemasks for any extended periods makes you MORE likely to become ill**. Reducing oxygen intake and inhaling waste air and bacteria, puts you at far greater risk of respiratory infections and gum disease [10]. As a result, countries such as **Sweden do not require people to wear masks**. Masks are only being used for political reasons to promote the fear needed to push compulsory experimental vaccines.

## 7 Boosting natural immunity is being deliberately ignored

Natural immunity is the most important defence we all have. But **there are no profits in natural immunity** for the powerful pharmaceutical lobby. That is why **boosting natural immunity is being deliberately ignored** but hugely profitable vaccines with no legal liability for manufacturers are promoted instead. There are also proven, safe and low cost COVID treatments available for anyone with severe symptoms [11]. Unfortunately **doctors who speak out are being silenced** [12]. At the same time, the HSE is paying medical staff to do more faulty tests and bonus payments for carrying out vaccinations [13]. But internationally, thousands of **doctors** are speaking out [14]
